

INTRODUCING THE DUOWEI® COPORATION

PRODUCTION

We have a world class panel manufacturing line, fully automated polyurethane insulation panel production equipment, all of which is imported from the OMS Company of Italy. With this we are able to produce hundreds of varieties of colors, configurations, thickness and surface textures in our insulated panel products.

OVERSEAS MARKETS

We are developing overseas markets for our various products. We currently ship to over 30 countries worldwide in Europe, Asia, Africa and North America.

OUR CORE

We depend on our powerful core of management professionals in our organization. Our target is based on a well-organized operational system and value of customers.

DUOWEI® | 多维企业集团
DUOWEI CORPORATION GROUP

BACKGROUND

Our company has been actively manufacturing insulated wall, roof and ceiling panel systems in Asia for more than 20 years. Most of our projects consist of large scale commercial buildings constructed from structural steel. This combination resulted in our own production of various steel productions used in the construction industry. Today we consist of 10 sub-companies located in Beijing, Tianjun, Shenyang, Haerbin, Baotou and Xinjiang. We employ over 1000 people and have an annual sales volume of close to \$2 billion CDN. Of that, export sales are close to \$10 million CDN.

SALES

We manufacture many kinds of products, which include steel surfaced, composite/insulated wall, roof and ceiling panels.

DESIGN

We are renowned for steel construction design. We are one of the leaders in steel construction and insulated panel applications.

- High degree of manufacturing technology
- VIP member of steel construction institute of China
- Certificated of ISO 9001: 2000 international quality system
